BILLING CODE 3810-FF-F

Intent To Grant Partially Exclusive Patent License; Dexcil Corp.

AGENCY: Department of the Navy, DOD.

ACTION: Intent to grant partially exclusive patent license; Dexcil Corporation.

SUMMARY: The Department of the Navy hereby gives notice of its intent to grant to Dexcil Corporation, a revocable, nonassignable, partially exclusive license in the United States and certain foreign countries to practice the Government-owned invention described in U.S. Patent No. 5,183,740 "Flow Immunosensor Method and Apparatus" issued February 2, 1993 in field of Polychlorinated Biphenyl (PCB) analysis in water, soil, air and mixed waste.

Anyone wishing to object to the grant of this license has 60 days from the date of this notice to file written objections along with supporting evidence, if any. Written objections are to be filed with the Office of Naval Research, ONR 00CC, Ballston Tower One, Arlington, Virginia 22217-5660.

FOR FURTHER INFORMATION CONTACT: Mr. R.J. Erickson, Staff Patent Attorney, Office of Naval Research, ONR 00CC, Ballston Tower One, 800 North Quincy Street, Arlington, Virginia 22217-5660, telephone (703) 696-4001.

Dated: January 12, 1995.

L.R. McNees,

LCDR, JAGC, USN, Federal Register Liaison Officer.

BILLING CODE 3810-AE-M

Intent To Grant Partially Exclusive Patent License; Electronic Data Systems Corp.

AGENCY: Department of the Navy, DOD.

ACTION: Intent to grant partially exclusive patent license; Electronic Data Systems Corporation.

SUMMARY: The Department of the Navy hereby gives notice of its intent to grant

to Electronic Data Systems Corporation, a revocable, nonassignable, partially exclusive license in the United States to practice the Government-owned invention described in U.S. Patent Application Serial No. 08/243,650 "Selective Polygon Map Display Method" filed May 12, 1994.

Anyone wishing to object to the grant of this license has 60 days from the date of this notice to file written objections along with supporting evidence, if any. Written objections are to be filed with the Office of Naval Research, ONR 00CC, Ballston Tower One, Arlington, Virginia 22217-5660.

FOR FURTHER INFORMATION CONTACT:

Mr. R.J. Erickson, Staff Patent Attorney, Office of Naval Research, ONR 00CC, Ballston Tower One, 800 North Quincy Street, Arlington, Virginia 22217-5660, telephone (703) 696-4001.

Dated: January 12, 1995.

L.R. McNees,

LCDR, JAGC, USN, Federal Register Liaison Officer.

BILLING CODE 3810-AE-M

DEPARTMENT OF EDUCATION

National Education Goals Panel Meeting

AGENCY: National Education Goals Panel, Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the date and location of a forthcoming meeting of the National Education Goals Panel. This notice also describes the functions of the Panel.

DATES: January 28, 1995 from 9:00 a.m. to 12:00 p.m..

ADDRESSES: J.W. Marriott Hotel, 1331 Pennsylvania Avenue, NW, Salon I, Washington, DC 20005.

FOR FURTHER INFORMATION CONTACT: Ruth Chacon, Associate Director of Communications, 1850 M Street NW, Suite 270, Washington, DC 20036. Telephone: (202) 632-0952.

SUPPLEMENTARY INFORMATION: The National Education Goals Panel, a bipartisan panel of governors, members of the Administration, members of Congress and state legislators was created to monitor and report annually to the President, Governors and Congress on the progress of the nation toward meeting the National Education Goals adopted by the President and Governors in 1989.

The meeting of the Panel is open to the public. The agenda includes a discussion of the evolving role and

impact of national academic standards and the role of the Goals Panel in promoting their use. Advisory papers for discussion will be presented by Shirley M. Malcom, of the American Association for the Advancement of Science and chair of the Panel's 1993 Advisory Group on Standards; Gordon M. Ambach, Executive Director of the Council of Chief State School Officers; Roberts T. Jones, Executive Vice President of the National Alliance of Business and member of the Business Task Force on Student Standards; and P. Michael Timpane, retired President of Teachers College, Columbia University and chair of the NEGP Higher Education Advisory Group on Standards.

Dated: January 19, 1995.

Noemi Friedlander,

Deputy Director, National Education Goals Panel.

BILLING CODE 4000-52-M

DEPARTMENT OF ENERGY

Environmental Restoration and Waste Management; Programmatic Environmental Impact Statement

AGENCY: U.S. Department of Energy.

ACTION: Notice of opportunity for public comment.

SUMMARY: The Department of Energy is giving the public the opportunity to comment on proposed modifications to the title and scope of the Environmental Restoration and Waste Management Programmatic Environmental Impact Statement. The Department proposes to modify the scope and name of the Environmental Restoration and Waste Management Programmatic Environmental Impact Statement (PEIS). The proposed action would focus primarily on the evaluation and analysis of waste management issues confronting the Department and would be renamed the Waste Management Programmatic Environmental Impact Statement. **DATES:** To ensure that the public's concerns and views are fully considered, DOE is providing a 45-day written comment period that will extend until March 10, 1995, to comment on the proposed modification to the Programmatic Environmental Impact Statement.

ADDRESSES AND FURTHER INFORMATION:

Written comments and requests for further information on the Environmental Restoration and Waste Management Programmatic Environmental Impact Statement should be directed to: James A. Turi, Office of Waste Management (EM-33), U.S.

Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0002, (301) 903-7147. For information on the Department's National Environmental Policy Act process, contact: Carol M. Borgstrom, Director, Office of NEPA Oversight (EH-25), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-4600 or leave a message at 1-800-472-2756.

SUPPLEMENTARY INFORMATION: On October 22, 1990, the Department of Energy issued a Notice of Intent to prepare the Environmental Restoration and Waste Management Programmatic Environmental Impact Statement (PEIS) (55 FR 42633). In the Notice of Intent and in an Implementation Plan issued in January 1994, the Department identified the proposed action as follows: "to formulate and implement an integrated environmental restoration and waste management program in a safe and environmentally sound manner and in compliance with applicable laws, regulations and standards." The Notice of Intent and the Implementation Plan identified two separate sets of alternatives to be evaluated, for environmental restoration and for waste management.

The Department attempted to meaningfully analyze the environmental restoration alternatives that it originally defined as part of the "proposed action." After considerable effort, the Department has concluded that it would not be appropriate to make programmatic decisions regarding cleanup strategies that would be applicable to all of the Department's sites. The fundamental reasoning behind the Department's conclusion is that cleanup decisions should reflect site-specific conditions, and, in any event, can only be reached with the approval of state and federal regulators and the involvement of the public. It would be inconsistent with the site-specific nature of cleanup decisions, therefore, to make these decisions under this PEIS that would be implemented nationwide.

Accordingly, the Department proposes to eliminate the analysis of environmental restoration alternatives and to modify the proposed action. As modified, the PEIS would consider how to manage the subject wastes and analyze alternative sites at which the wastes could be managed in the future. The PEIS would focus its programmatic evaluations on waste management facilities, and would henceforth be known as the "Waste Management Programmatic Environmental Impact

Statement." As previously set forth in the Implementation Plan, the PEIS would evaluate decentralized, regional, and centralized approaches for storage of high-level waste; treatment and storage of transuranic waste; treatment and disposal of low-level and low level mixed waste; and treatment of hazardous waste. Waste generated by restoration activities in the future that must be managed as part of the Department's program to manage all of its wastes would be considered in the PEIS's projected waste inventories. The draft PEIS is currently scheduled for publication in late spring of 1995.

In the October 22, 1990, Notice of Intent in the **Federal Register**, the Department of Energy discussed the preparation of a Programmatic Environmental Impact Statement based on formulating and implementing an integrated environmental restoration and waste management program in a safe and environmentally sound manner and in compliance with applicable requirements. The Notice of Intent stated that the purpose of the integrated environmental restoration and waste management program was to provide a broad, systematic approach to addressing site cleanup and waste management. Although the proposed action was defined in terms of integrating environmental restoration and waste management, the description of the alternatives in the Implementation Plan set forth separate sets of alternatives for environmental restoration and waste management.

When the Department published the Notice of Intent in 1990, there were important national issues regarding the direction of its environmental restoration program that could be meaningfully evaluated in the PEIS. These issues focused primarily on the level and extent of cleanup of the Department's facilities. The Department continues to believe that cleanup of its sites involves important issues such as land use, public health, worker risks, and cleanup standards. The Department has concluded, however, that programmatic decisions regarding environmental restoration cannot be made because these decisions should reflect the particular conditions at each site, and require the approval of state regulators and the involvement of stakeholders. The Department believes that the proposed action originally considered in the PEIS should be modified by eliminating the analysis of environmental restoration alternatives. In view of this modification the PEIS would be renamed the "Waste Management Programmatic Environmental Impact Statement."

The modified proposed action would focus on the evaluation and analysis of waste management issues confronting the Department and would incorporate potential impacts of environmental restoration on the management of wastes. The Department believes the proposed action as modified will identify and analyze waste management issues and activities for which the Department is responsible. A summary of the comments received in response to this notice will be contained in an appendix to the draft Waste Management Programmatic Environmental Impact Statement. Comments previously received during the public comment process on the scope of the PEIS that are still relevant in light of the proposed modification to the PEIS, and the issues raised by such comments, would be evaluated as discussed in the Implementation Plan. Comments on the scope of the PEIS that are relevant to other analyses being conducted in connection with site-specific environmental restoration at DOE's sites will be considered in the preparation of those analyses.

Issued in Washington, D.C., on January 18, 1995.

Thomas P. Grumbly,

Assistant Secretary for Environmental Management.

BILLING CODE 6450-01-P

Research, Development and Demonstration of New and Advanced Technology for the Glass Industry; Financial Assistance

AGENCY: Department of Energy, Idaho Operations Office.

ACTION: Solicitation for Financial Assistance: Research, Development and Demonstration of New and Advanced Technology for the Glass Industry.

SUMMARY: Notice is hereby given pursuant to Public Law 93-577, the Federal Non-nuclear Energy Research and Development Act of 1974, that the U.S. Department of Energy (DOE) Idaho Operations Office (ID), is seeking cost-shared applications for research, development and demonstration of new and advanced technologies to assist the glass industry to remain competitive, reduce energy consumption, and reduce negative environmental impacts. A minimum 20% non-DOE cost-share for research and development phases and a minimum 50% non-DOE cost-share for the demonstration phase is required.
